

Neighborhood Notification: Bicycle Improvements on Shea Boulevard from 40th Street to Tatum Boulevard

As part of the Street Transportation Department's core mission, we strive to improve the City's roadways to create a safe and efficient transportation network. We are updating the current traffic lane striping for to improve safety for people who walk, drive, ride bicycles and use transit.

About the Project

Where: Shea Boulevard from 40th Street to Tatum Boulevard.

What: Where there is enough space on the roadway, buffered bicycle lanes will be added. The number of travel lanes will remain the same. This project does not remove or add parking.

When: Pavement maintenance is planned for Spring 2023 and traffic lane improvements will happen shortly after.

Why: Buffered bike lanes add space between people driving and people walking or biking for increased protection from vehicles, improved safety and added comfort. Additionally, the slight narrowing of the lane widths to accommodate the buffered bike lanes will help to guide cars and deter speeding.

What Will the Project Look Like?
